ISSUE 10

Shoot Pink, ROOP County

Sunday was our annual Shoot Pink match put on by JJ. It was the 3rd annual and the money collected from the match fees will be contributed to the Cancer Society. And as important we recognized those that have fought the beast and won along with remembering those that have left us.

We had 2 posse's and 30 shooters. JJ wrote nice fast stages. Those who shot pink shotgun shells got a bonus on 3 stages. And those who have recovered from cancer had the option of taking mulligans if they wanted.

Thank you, JJ, for putting this together. And thanks to the shooters who bought pink shotgun shells. Part of that purchase goes to support cancer research also.

At the shooters meeting we poled the group and we all agreed that fall had arrived. It was cool and breezy, so yeah, we're shooting at Fernley.

By now you all should know that we have canceled two scheduled annual matches. Jaspers Special Olympics, Cops and Cowboys match. And Sunday it was decided to cancel the annual Wild Bunch Match. Both were canceled for lack of attendance or registration.

BBR will be contributing to the Special Olympics even though we didn't go forward with the match. When asked, the membership still wanted to continue our support.

The Board will be getting together along with the match directors to discuss how we can get registration up or should we not plan these annual events anymore.

We should be hearing about the annual Christmas diner as it gets organized.

And as I have mentioned, at almost every shooters meeting, we need to get a work crew together and paint out storefronts. They are deteriorating and its much cheaper to paint than replace. I'll get with our Quarter Master, Drifter John, to see how we can get this organized and done.

See you all in November.....dress warm.

Ike

Howdy all,

Not much to write about, as I wasn't at the match. Thanks to Ike for taking the helm and thanks to JJ for producing the match. 31 shooters with 13 shooting clean. We'd better keep an eye on Patience she has shot the last two Roop matches clean!!! Good shooting lady!!!!!!

Those not in attendances for the HPD Oct. match were at two different matches and it sounds like all had a great time!! BeeBad and I went to the great match in Ukiah; Ca. called Helldorado and another group went down south to Eldorado. We were well represented at both matches. Dutch Dalton and Fanner Fifty shot 5th and 6th overall out of 139 shooters at Eldorado, GREAT SHOOTING GUYS!!!!!! We took home state championships in the following categories-

Fanner Fifty - Senior Gunfighter

JJ – Senior

Dutch Dalton – Silver Senior

Nevada Blaze - Lady Wrangler and she won 1st place long - range single shot side match. Way to go girl!!!!!! Maybe she'll come out and shoot some long range with us now!!!

The match we went to was a little different. It was more of a retro match with targets a little farther back and some a little on the small size. They offered a Tom Horn category, which was a blast!! They had somewhere around 60 shooters with one shooter coming all the way from Texas, who by the way was the only clean shooter. Congrats to Hoot!!!! When we shot the same match in 2013 they had things a little convoluted with two or three different sweeps on the same stage and other stuff that was a little goofy. Brothel Bill took the lead on writing the stages this year and did an outstanding job. All the stages flowed and the movement made sense it's just that they were a little challenging. I would highly recommend this match to anyone looking for something a little different than 10-10-4 stand and deliver with the targets so close that you don't need those little bumps on the front of your guns. Actually, 49er Preacher summed it up best saying you didn't need to use the front sight as much as you had to use the rear sight!!! All of our group placed somewhere in the final scores with your truly winning the BP single shot with 10 out of 10 and the overall lever rifle caliber with 9 out of 10. I got real lucky!! This was a fun match with the Helldorado cowboys bending over backwards to see that we all had a great time!!!

The fires around Santa Rosa have affected our friends from Possum Hollow, the worst of it being Ruby Rawhides daughter losing her home. I've been in contact with most of our friends from the area and they are nervous and apprehensive about the fires that won't quit.

Next month Jackpot Jerry is writing the stages for the Nov HPD match and I will have big bore optional for the following Sunday.

That's all for now,

Jasper
