SILVER STATE SHOOTISTS JULY 2021 BIG BORE OPTIONAL MATCH

JUNE 20, 2021 Match

Our first Big Bore optional test match was a great success! We had 6 shooters use their big bore rifles for the match. Even though the targets were a fair distance some folks' loads still knocked 'em down! We had 19 shooters and a single posse for six stages which made for a long day but it was fun. There were no clean shooters this month. Better luck next time! Thanks to Jackpot Jerry for writing new and challenging stages each month.

Derringer Dan also known as Dan Gage shot his first match with us. It was his first match since he was burned badly in a house fire. He shot 22's and light loads due to his hands healing from the burns.

DIAMOND DIRK SLADE

From Jackpot Jerry –

Again, heartfelt thanks to everybody for all of the help setting up and tearing down the bays for the match. Trying to get those big bore targets up on the hill at a reasonable distance took some extra effort but I think they worked out great. We now have another fun type match we can use in the future. We will have BIG BORE again.

We set up two bays in case we had two posses and ended up with 19 shooters. In hind sight, I would have split the group into two posses. It was close to three o'clock when we finished. That said, everyone wanted to stay and shoot the six stages. It was fun having the entire group together so we could socialize. Irish Ike came out and we put him to work scoring since he did not shoot. Pasco also came out to watch our Big Bore match. Thank you very much.

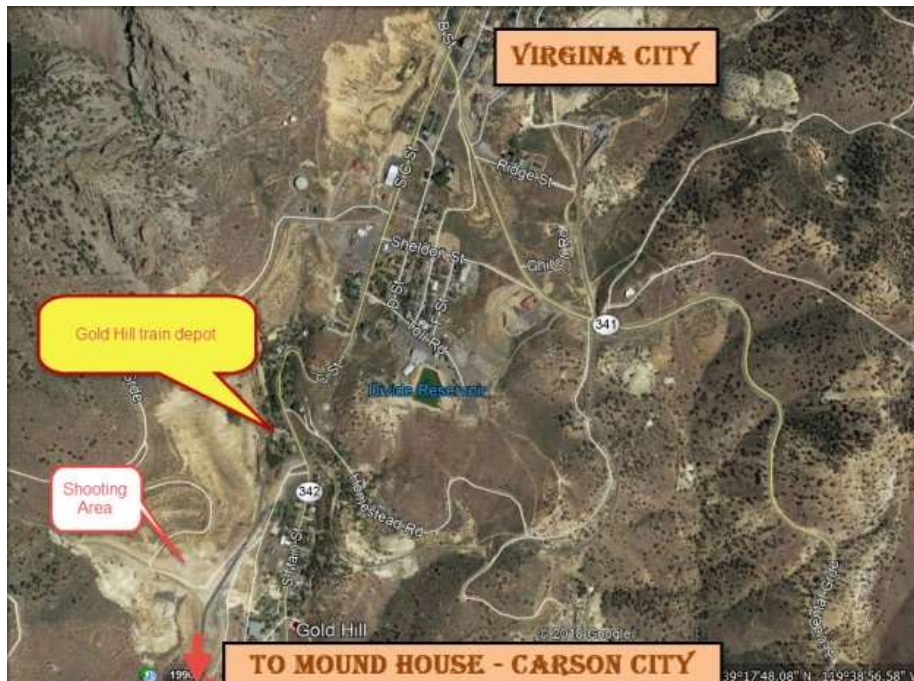

I'm not certain what surprise to throw in next match. We have tried the birds which worked well, now big bore is an option, and of course we have the bonus target up in the Billy Goat Gully that a few folks have asked for again or we might just have a great traditional match. Regardless, I am looking forward to seeing all of you in August.

Silver State Shootists badges have been ordered and will hopefully be here for the August match. The badges are 3 inches which is the same size as the SASS badges. Also like the SASS badges they will attach with a pin and clasp on the back. If there are any typos in the following list, let me know ASAP!
