## **March Meeting**

The February meeting of the Regulators was canceled due to bad weather. If the weather causes the roads to be icy and slick, then I will cancel the meeting as I don't want people to take a chance on having an accident just to come to a meeting. As everyone knows, the weather can change here at the drop of a hat.

**The March meeting will be held at the Janesville Pizza Factory on Friday March 18, 2011 at 7:00 PM. Of course weather permitting.**

## **Shoots**

I had sort of scheduled a shoot for March 5, 2011, but Mother Nature saw fit change our plans. With all the snow and rain the range would not have a fun place to shoot.

**The next scheduled shoot will be April 2, 2011. Sign ups are at 9:00 AM and shooting starting at 10:00 AM. Of course this will depend on the weather.**

Lets hope that the range will dry out by then.

If you want to know what the weather will be on the day of the shoot, you can go to [www.lassenregulators.com](http://www.lassenregulators.com) and click on the Info bar then click on Lassen wx. The web master has put in the weather info for all the club sites that he manages. This is much appreciated.

## **NICKLES WORTH**

I received an email from the Chorro Valley Regulators over by San Luis Obispo. They are having their annual shoot out on August 11-14, 2011. If you are planning on being over that way in August and want to shoot then sign up soon as they are limiting it to the first 252 applicants. You can check out the club by going to [www.chorrovalleyregulators.org](http://www.chorrovalleyregulators.org). With the price of gas going through the roof

again, a lot of people will probably not be taking long trips this year. So it sorta makes sense to travel to some of the local clubs for their annual shoots.

Just a little reminder about the 2011 Sagebrush Rebellion. It is never to early to make plans to be there.

“Socialism is a philosophy of failure, the creed of ignorance, and the gospel of envy, Its inherent virtue is the equal sharing of misery.” Winston Churchill

Keep your powder dry and deny the enemy the high ground.
