

## ***SHERIFF'S BLOTTER***

By Jasper Agate

Howdy all,

Have you been to our new website?  
<http://northernnevadacas.com/rccsa/index.html>.

Our web master, Don McRoberts is doing a great job and he is very patient with those of us who are less than skilled on the computer. He has walked me through everything he has done. I don't understand a lot of it, but it's comforting to know we have a talented man at the helm of our site! Carson Kate sent pictures of our last match and Don has them up. I'm going to send him Pictures from ROOP County days for him to post. Speaking of ROOP County Days our Application is now available on our website. I can't wait to see who's the first to sign up this year!

What a great match Southpaw had for us!! Even those of us who screwed up had huge smiles on our faces! It was great to see that Snake Oil Charley braved the pass and made the long drive from Sacramento He brought his wife, Jill and has Grandson in-law to be along. I wonder if his wife got wind that there was a gun show in town. Charley confided in me that there are two places that he isn't allowed to go unsupervised., gun shows and tool shops! The youngster got a chance to shoot my full house BP 45's and shot a stage at the end of the day. He told me with a wide grin on his face that he would be back! Drifter John was busy showing another gentleman, whose name eludes me, the ropes while his wife was busy taking pictures of the shenanigans. El Rod and our very own Toni Two Bits came out for the first time this year and I hope we see more of them!

It was a day of mess ups for some of us. Big Pete got a safety and a "P" on the same stage, I walked off from the loading table with loaded pistols in my holsters and Long Arm shot three stages without safety glasses. Here are three guys who are constantly watching for

safety issues on the range doing really dumb things. My point is we can all mess up without even trying and we all need to be observant and keep a constant discerning eye on each other!

Next month, for our April match CC Dollar is writing the stages and says he

some wild bunch and this sounds like the right time to me! If there is some type of shooting you would like to do, just let us know and we will start scheduling it in!

That's all for now, I'll see you on the range,

wants to set up six bays with fast "blow and go" stages. Weather permitting, we will be going out on Saturday for our first overnight of the year. We will set up on Saturday and then shoot to our hearts content. CC said something about a 410 and 22 match. Dewey Boggs asked me when we were going to shoot

## ***THE DEPUTY'S DESK***

By Toni 2 Bits

Howdy Roopers....

After 5 months of not shooting, it was strange to get back and remember how to load and shoot. Had lots of hiccups with my rifle -- between my goofs and a few

rounds that didn't go off -- the 6 stages that Southpaw put together weren't even well-shot. By the sixth stage, I think I finally had it together. I wanted to have 5 "mulligan's" to do over. Oh well, we've all had various problems.

I really liked having 3 stages done on each bay so there was little movement of the guncarts. I liked having 2 stages on one bay last year, but this is even better. I don't think I even remember having to move any of the targets in-between each stage. Lots of thought by Southpaw - thanks a lot.

El Rod's second knee replacement surgery went a lot better than the first, so his recovery time was essentially nil. He was even antsing to get down to the shop and work rather than sit and watch TV.

Hope to see everyone in April.

## ***WASHOE COUNTY RANGE FEEDBACK***

By Big Pete

There was a (very) small article in today's Reno newspaper about Washoe County's Department of Regional Parks and Open Space seeking public feedback about the future development of the Regional Shooting Facility in Warm Springs.

I know we made a decision a few years ago to abandon the Washoe County range, but as firearms owners and active shooters we should take an interest in what is planned for that range.

Our use of the range in Fernley is comfortable, but hardly cast in stone. It remains private property subject to the property owners whims. We should not ignore other alternatives, and should not ignore our future as gun owners in Nevada.

Several of the questions on the on-line survey deal with camping at the range, one of the issues that drove the move out to Fernley for Roop Co. Cowboys.

he "live" question and answer event will be held at the Ranch House at Rancho San Rafael Regional Park at 6pm Thursday 4/1. Go on-line to respond to the survey at: [www.washoecountyparks.com](http://www.washoecountyparks.com)

## ***SUGGESTION FOR SOMETHING TOTALLY DIFFERENT***

Howdy Yall

I was thinking it would be fun to do a 1911 optional for your main match pistol

like we do with big bore rifles. I understand there are folks who worry about CAS turning in to IPSC with 1911's but I am thinking if we just do it once or twice a year it would give those of us with 1911's a chance to shoot them a little more than the occasional Wild Bunch match. The only thing I can think of that would be needed is to have the pistols shot in front of a table so the gun could be grounded after shooting. The shooter would come to the line with a mag. in the gun, hammer down on a empty chamber and one mag. on his/her person (five rounds each) We could have slightly extended safety meeting with 1911 savvy ROs and put all 1911 shooters on the same posse with them. Obviously 1911 shooters would be in a separate category. Think it over and let me know what you think. Drifter John  
Thanks Drifter John

## ***Social News***

By Fanny Seabride

Since we won't be doing the Sunday Brunch in Gold Hill this year, I have proposed some alternatives. They would all be on a non-shooting Saturday. Please give me input as to which ones you would like me to pursue further.

1. A picnic at the Mormon Station in Genoa. They have a large pavillion with BBQ facilities.
2. A train ride in Virginia City-just the short one to Gold Hill.
3. A boat ride at Lake Tahoe.
4. Dinner at the Basque restaurant in Gardnerville.
5. A ladies tea at Belle's Tea Cottage in Reno.

## ***A NOTE FROM YOUR EDITOR***

Just a reminder to those members on the internet. We now have a replacement for the Nevada CAS message board.

<http://www.northernnevadacas.com/Forum>

It will have information and opportunities to comment on the happenings at RCCSA and the other Northern Nevada CAS clubs. Please visit it, sign up and participate in the discussion!

## ***SHE BURNS GREEN, ROSIE!***

Next in a series from Harold's Club

Pioneer Nevada

Supplied by Slow Eddy

Skirting the eastern rim of Death Valley, the Funeral range is as forbidding as its name, and the fact that these peaks look across a sullen desert toward Specter mountain and the Skull range further east, does little to encourage the spirit of adventure in timid souls.

But Aaron Winters and his frail, Spanish-American wife, Rosie, ventured into this ghostly country in the late seventies and settled in Ash Meadows. A hillside dugout near a tiny trickling spring was their home site and they eked out a bare living from the unyielding desert. Often their fare consisted of mesquite beans and chuckwalla meat, primitive food of the Indians. Despite the rigorous life, Rosie maintained a link with civilization. An old starch box, used for a dressing table, supported a cherished collection of bottles that had once contained such feminine niceties as Magnolia balm and Florida water. Despite the knowledge that his wife longed to leave the desert, Aaron Winters couldn't bring himself to quit his prospecting and settle down to city life. Deep in his mind was the thought that somewhere in this barren country untold riches were waiting just beyond his grasp.

One night in 1880 a lone prospector wandered upon the Winters' Ash Meadows abode. As customary on the desert, the Winters asked the prospector to share their meager evening meal, and after supper the wanderer began telling of

the Borax discoveries further north around Columbus.

Listening intently, Winters asked numerous questions concerning the tests that would prove the presence of borax deposits. In detail, the visitor enumerated the ingredients, which, when mixed with borax and fired with alcohol, would produce a green flame.

No sooner had the prospector departed than Aaron Winters took off on a long trek to San Bernardino to obtain the chemicals. Upon his return, he and Rosie travelled by foot over the Funeral range into Death Valley where Aaron suspected the existence of borax. Making camp late in the evening at Furnace Creek, they scooped out a borax sample and mixed the powdered chemicals.

In the eerie desert darkness, streaked only by the pale light of the moon, Aaron fired the sample. Breathlessly they waited. Then he shouted, "She burns green, Rosie, we're rich!"

The test was accurate. Within a short time the properties he located were sold to William T. Coleman and Company for twenty thousand dollars, and Coleman started the Harmony Borax Works on the floor of Death Valley. It was this property, the result of Aaron Winter's green flame, that later obtained prominence through twenty mule team transportation.
